

# Monroe Street Water Main Nighttime Construction

**Project  
Description:**

City contractor, *Mid-Atlantic Utilities, Inc.*, will be replacing the water main along Monroe Street. A neighborhood advisory was mailed on March 16, 2012, informing residents and businesses about the upcoming water main construction. Due to high volumes of traffic and the need to shut off the water main, a small section of the construction project at the intersection of Fleet Street and Monroe Street will be completed at night between 8:00 p.m. and 5:00 a.m.

Night time construction is scheduled to begin the evening of Wednesday, May 30, and will conclude the morning of Thursday, May 31, weather permitting. The work will involve removing and replacing approximately 100-feet of water main at the Fleet Street/Monroe Street intersection. The work area will be prepared during the day to ensure construction duration and noise is limited during the night. At night, Fleet Street between Maryland Avenue and Monroe Street will be closed, however traffic will be allowed to pass through this intersection along Monroe Street. During the construction process there will be normal construction machinery noise. We apologize for any inconvenience this may cause.

A separate notice will be mailed to those properties whose water will be shut off. The addresses affected by the May 30 night time water shut off are as follows: 120 Maryland Avenue, 103 Fleet Street, 255 East Jefferson Street and 200A & 200B Monroe Street.

**Purpose:** To remove and replace 100-feet of water main at night.

**Location:** Intersection of Fleet and Monroe Street.

**Timeline:** Work is scheduled to be completed in one night, beginning the evening of Wednesday, May 30 and will conclude the morning of Thursday, May 31, weather permitting.
